

2008 Auction

July 20 through 27 on eBay

Welcome to the NACS 2008 Clivia Auction!

Thank you so much to each and every one of you who made donations to our auction. The response was so overwhelming that there was no way Malcolm Shrimplin and I could get this all printed and mailed to NACS member's homes before the auction. I am sorry about this. What I am not sorry about is the fantastic selection of plant material that will be offered! The auction will start shortly before noon (Pacific Standard Time...same as Ebay time) Sunday 20, 2008 and end at 6 pm on Sunday July 27, 2008.

So many generous people have donated plants, seeds and other items to this fundraiser and we thank you. That however is only the first half of the process...now we need generous bidders to finish the job. The advantage of buying clivias from the NACS auction is that the plants are indeed what is stated...no unpleasant surprises when that 'Ellexa gold' really turns out to be generic orange...etc. To be sure to find all of our auctions on Ebay you can search under **NACS Clivia**. Those 2 words are in the title of every auction.

All typos, miss-spelled names, etc. are fully my responsibility. Missing information in the auctions, no photos, etc.....hey, I tried....I can only put in the auction what I am given. If you ask questions I will have to get back to the donor so please be patient. James Comstock wins the prize for most information about a donated plant. Should he ever be able to part with one of his own plants I predict he will do very well selling them on Ebay.... but don't hold your breath!

All seeds and small seedlings start at \$1 and all large seedlings to mature plants start at \$10. The seeds start the auction, the plants end it. Where a plant appears in the auction has nothing to do with the donor or the plant...it is random with 2 sentimental exceptions. The auction will start with seeds donated by Dries Oliver. As I write this, Dries is quite ill after two surgeries. After his initial surgery he actually answered my emails and made sure I had photos for his seed auctions. Dries bends over backwards to promote clivias and get new people interested and involved with them. He is in our thoughts and prayers. The 2nd exception is that the auction will end with the Solomone plants donated by Manuel Morales of Plant Horizons and Monterey Bay Nursery in honor of Joe Solomone's memory.

After the auction I will be shipping the plants. This will be a huge task and I beg for your patience. I will not have plants out of their pots languishing...each order will be completed individually to avoid stressing the plants anymore than necessary. If you feel that your order is taking too long please email me at zooey53@comcast.net. I am using my own ebay ID and want to avoid negative feedback. Thanks for your understanding. Also, I am the only one with access to the auction listings. As, I will not be bidding, NACS officers, society members and anyone else should feel confident the auction will be run in a fair manner according to eBay's rules.

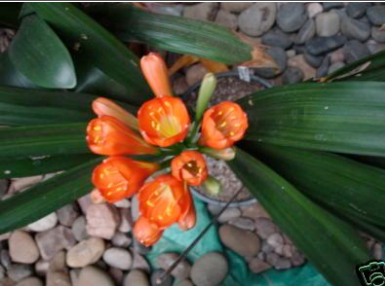

Before I end this letter I want to thank all the donors, all the people who helped me find photos for other people's auctions, people who transported plants, people who kept plants at their homes, people who gave me containers for shipping seeds, there are so many of you I don't think I can list you all..it is a tremendous group effort ; THANK YOU!!!

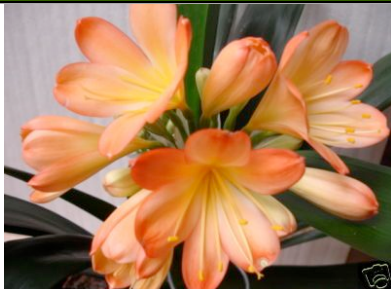

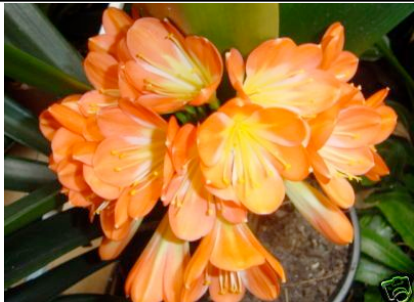

Clivia are exciting plants. I hope we have something here to excite you! Happy bidding!

Marilyn Paskert, NACS Auction Volunteer (This year only!)
